Kelli,

On behalf of the NC State GLBT Center staff and students, we wanted to thank you for sharing with us the powerful Queer Memoir virtual workshop. You did a wonderful job presenting and the material really resonated with everyone. The students definitely connected with and were empowered by the idea of creating their own stories. We wanted to share with you a couple of testimonials from the students themselves:

“[This workshop] helped me learn how to express the history and journey I’ve had with [my relationship with my gender identity].”

“[This workshop] has impacted [my relationship with my gender identity] greatly since the speaker has given me awesome advice on how to utilize my own agency in my own gender expression. I am amazing no matter my identity.”

“It was a good medium to write down and verbalize some of my inner thoughts.”

“[This workshop] made me feel less isolated. Now I want to do something like this more often.”

As you can see, our students greatly benefited from this excellent workshop. Thank you again for taking the time to present to us! We are greatly looking forward to doing it again in the future.

Sincerely,

The North Carolina State GLBT Center Staff
